Our Speaker

Dr. Lane Freeman, is the Director of Online Learning for the North Carolina Community College System, where he champions the integration of emerging technologies, particularly Artificial Intelligence (AI), into education and workforce development.

With over 20 years of experience in K-12 and higher education, Dr. Freeman has led initiatives to modernize instructional practices, ensuring students are prepared for the evolving demands of the workforce. His efforts have been instrumental in developing AI-enhanced curricula, conducting faculty professional development, and expanding access to high-quality online programs. In 2024 alone, Dr. Freeman has facilitated nearly 20 AI-focused events, training over 1,000 educators on how to leverage AI to improve both classroom instruction and administrative efficiency. A passionate advocate for educational innovation, he also organized the 2024 Immersive Learning Conference, which explored the potential of Virtual Reality (VR) and AI to revolutionize vocational and technical education in North Carolina's community colleges.
